## REPUBLICAN MEETINGS.

Hon. G. W. Hazelton will speak as follows:  
Madison, Friday, Sept. 3.  
Dodgeville, Saturday, Sept. 4.  
Monroe, Tuesday, Sept. 5.  
Brookfield, Wednesday, Sept. 6.

President Hayes is on his way to the California fairs.

Ben. Butler should take the stamp for the Democrats at New Orleans.

During the month of August the public debt was decreased a little over 12 million dollars.

The standard silver dollars are finding their way out of the treasury vaults and going into circulation.

Chairman Baker will inaugurate one of the most vigorous campaigns ever known in Wisconsin. He proposes to leave the Democrats standing in the rain.

Hon. Seth M. Richmond, President of the Little Falls, New Jersey, National bank, who has been a life-long Democrat, has declared for Garfield. His conversion will count a good many votes for the Republicans.

Once the Confederate government offered \$10,000 for Ben. Butler, dead or alive. The Confederates have got him now without a cent of cost, but he may prove dear to the Confederates even as a gift. But we will hear no more about "spoon" now.

Hon. I. C. Sloan, of Madison, who recently abandoned the Democratic party and declared for Garfield and Arthur, will make a speech in Janesville during the campaign, and will give strong reasons why every business man should vote the Republican ticket.

California has furnished London society one of the fashionable beauties in the person of Mrs. Minnie Thornburgh Cropper. She is six feet and three inches high, rather slender and of a true blonde type. It is said her mother was the prettiest woman ever born in Ohio.

It is said that Richard Guenther, State treasurer, will run for Congress on the Republican ticket in the Oskosh district. It will be interesting to have Mr. Guenther run against Gabe Bouck. The result would evidently be a Republican victory. He is a strong man both as regards ability and personal popularity and will redeem that unfortunate district from the hands of the Democrats.

Commissioner Bentley, of the pension bureau recently delivered an address at Pittsburg, before the veterans of the late war in which he said: "On the 30th of June last there were 245,000 pensioners. Including the first payments to pensioners, whose cases were settled during the fiscal year ending on that day, there was paid out for pensions \$36,000,000, exclusive of arrears which amounted to \$21,000,000 in addition; so there was paid out for pensions during the fiscal year \$57,000,000. Considering the number of claims now awaiting settlement, he thought it certain that the regular pensions and first payments to the new pensioners will in the aggregate continue to increase until they shall have reached \$50,000,000 in amount, and perhaps a greater sum. On the 30th of June last there were before the office awaiting settlement 250,000 claims for original Army and Navy pensions, involving an average first payment amounting to \$1,100 in each case, or a total of \$275,000,000 for first payments alone. In addition there were 7,000 unsettled claims for the War of 1812 and the Mexican and Indian Wars. The annual average of the pensions of all classes is \$106 to each pensioner." He said the present system under the Democratic rule of examining pension claims is an outrage upon meritorious claimants.

## THE FAIR GROUND MORTGAGE.

To the Editor,  
MILWAUKEE, Sept. 1. There is a story going the rounds that H. Richardson got a law passed giving the County Fair Association the privilege of mortgaging its grounds, and that H. Richardson and his brother, the Secretary, furnished the money, and took the mortgage, and that now they were doing what they could to defeat the Association, in order to get the grounds.

Can you give any light on this subject?  
A. SCHREIBER.

There is no truth whatever in the report that Senator Richardson or his brother, has any interest in the mortgage in question. The law under which the Rock county agricultural society was incorporated did not give the association the power to mortgage its lands. It had the power to buy and sell but could not mortgage. The society became involved, and it was found necessary to borrow money, but without an amendment to the law incorporating the society, it could give no security. The officers of the association requested Senator Richardson to secure the amendment to the law which would help them out of their financial trouble. He could not do otherwise than to accede to their request. The law was amended, and on the 16th of February, 1880, the society borrowed \$2,800 of Mrs. J. A. Dodd, of Milton Junction, and Phry Norcross, of Janesville, negotiated the loan. It will be seen from this statement of facts that neither Senator Richardson nor his brother, the secretary of the society, has any interest whatever in the mortgage, and any report to the contrary has no foundation of truth.

In coinage \$24,000,000 in silver and \$22,000,000 in gold at the San Francisco mint in 1878, there was lost only \$29. The carpet, which had been down five years, was taken up last spring, cut up in small pieces, and burned in pans. The debris was put through the same process as the mining dust and there was got from the old carpet \$2,500.

## THE PEOPLE AND THE CAMPAIGN.

One of our local campaign speakers, who can judge well of the temper of the people, told us a day or two since that what the people wanted to hear more about than anything else in this campaign, was the Solid South. Nearly all other questions have passed out of consideration. The grave question now is, "Shall the Confederates of the South control the executive branch of this government?" Shall the ballot box stuffers, the midnight riders, the kuklux klan, the Knights of the White Camellia, the ride clubs, the political murderers, the men whose hands are stained with innocent blood, shall these be the ones to control every branch of the government, and compel the people of the loyal North, who saved the country from disunion and made it free, to take back seats? This is the purpose of the Democratic party to-day. Its aim is to place in power the very men who inaugurated the rebellion. They are fighting for the principles of Lee and Jackson, and ask that what they lost by the triumph of the Union armies shall be gained by the success of the Democratic ticket.

It does not require a political prophet to foresee the consequences of a Democratic victory. The South is taking the lead in this campaign. The Democratic party of the North is promised a Solid South with 138 electoral votes to begin with. The managers of the party in these Southern States have pledged their Northern friends that the Republican vote shall be suppressed by terrorism, blood, and fraud. They do this to place the South where it stood before the war. For over fifty years previous to the breaking out of the rebellion in 1861, the South had insolent domination in the government. They taxed the majority. The slave power dominated over a free North. They filled nearly seven-tenths of the offices of the State at home and abroad. They dictated the policy of the government, and when they saw that a Republican President was elected in 1860, and that their day of power had passed, they determined upon secession, and the movement received the sanction and sympathy of a very large majority of the Democrats in the North, and nearly every Democrat in Congress.

But once in a while a Democratic paper is bold enough to say that the success of the Democratic ticket in 1880 will not bring the principles of Lee and Jackson to the front, neither will it give the South the domination in this Government and nation. But let us see what the South has already got by the Democrats controlling both branches of Congress. It must be remembered that the South is after power, offices, and the emoluments thereof, and it has the cheek and the insolence to demand all of them.

Well, with the Senate and House of Representatives in Democratic hands, the South has made out to get this much: In the Senate there are twenty-eight standing committees, and the Confederates have the chairmanship of 17 of the most important ones. But this is not all. The committees of the Senate are also constituted as to give the control of them to the Confederates. On the committee on finance, 3 of the 5 Democrats are Confederates. On the committee on commerce 4 of the 5 Democrats are Confederates. The committee on claims has 5 Democrats, and all of them are Confederates. And so it runs through all the Senate committees.

In the House of Representatives there are 42 standing committees, and of these 22 of the most important ones are under the control of the Confederates. On the committee on ways and means there are 8 Democrats, and 5 of these are Confederates. On the committee on appropriations are 9 Democrats and 6 of them are Confederates.

On the committee on commerce there are 10 Democrats and 7 of them are Confederates. And it runs in this way through all the committees. In addition to this, the Confederates hold a majority of the offices in and about the capital.

If the Democrats should succeed in electing Hancock the Confederates will get the lion's share of the honors and offices under the government. They are after these. There is no mistaking their ends and purposes, and this is why the people of the North will be solid against a domination of the South.

**THURLOW WEED SICK.**  
New York, Sept. 1.—The venerable Thurlow Weed to-day was quite ill, and sufficient apprehension is felt for the result to keep his home on West Twelfth street besieged by friends inquiring as to his condition. He is 83 years old. He has recently been attending meetings of corporations he is interested in, and it is thought he has overworked himself during the hot weather.

**SUICIDAL.**  
GALENA, Sept. 1.—A young man named Albert Dent, who has been in the employ of Benney Andrew, near Hazel Green, for the past four months, shot himself in the left side yesterday afternoon with suicidal intent. At last accounts it was not known whether he would survive or not. The cause of the act is unknown.

Special to the Gazette.  
PHILADELPHIA, Sept. 2.—A dispatch from T. W. Hall, Windsor, Canada, says he will turn over Dr. Buchanan, for a reward of \$2,000. Buchanan is the man who went into the business of selling diplomas to medical students.

## PRESIDENT HAYES.

Special to the Gazette.  
CHICAGO, Sept. 2.—President Hayes and wife and two sons, and General Sherman and daughter, with several others, arrived in the city this morning and breakfasted at the Grand Pacific. They left for Omaha at noon.

## PENNSYLVANIA.

Democratic Despondency: Garfield Wins of the State Grow to Succeed Wallace.

PRESBURG, Sept. 1.—The bluster with which the Democrats entered upon the campaign in Pennsylvania has given way to despondency. It is now conceded on all sides that Garfield's majority will not fall below 20,000. The Hon. Galusha A. Grow has secured pledges enough to insure his election as United States Senator to succeed the Hon. William A. Wallace. The Cameron faction will support Quay, but as business is at a heavy discount his defeat is certain. A tolerably close canvass of this (Allegheny) county indicates a Republican majority of over 9,000.

## MASSACHUSETTS.

General Butler's Plan Fails Through in the Democratic Convention.

WORCESTER, Mass., Sept. 1.—The Democratic Convention to-day did not carry out the entire programme which General Butler, the acknowledged dictator had so carefully arranged before the meeting of the delegates. This was due to the vacillation of Mr. Butler himself. When he came to the city this morning he saw that a full body of the delegates were opposed to the nomination of Mr. Gaston for Governor, and favorable to the Hon. C. D. Thompson. Accordingly the plans were changed, and it was decided not to attempt to force Mr. Gaston upon them with much earnestness. The duty of presenting his name was assigned to a prominent Butlerite, with the understanding that Butler should second it. But the name was received with such ill favor that the plan was modified, and Mr. Butler himself called upon the Convention to express its preference for any man by a fair and free ballot. First, however, a motion having been made to nominate by acclamation, he decided positively to be a candidate. The result of the ballot was the defeat of Gaston and the nomination of Thompson, who is best known outside the State as the man who defeated Ben. Fawcett. The nomination will be distasteful to the nominee, for he prefers to be outside of the active political contest. It is regarded as a bad move that Ben. allowed the Convention to take this step, for Thompson is the pet of the party, and it may be hard to turn it against him next time. He should run this year and wish to then.

By a singular coincidence the candidate for Lieutenant Governor is also named Thompson.

## HAYES AND GARFIELD.

They Attend the Soldiers' Reunion at Canton, Ohio.

CANTON, Sept. 1.—The soldiers' reunion to-day was a complete success. The weather was all that could be wished for, and the crowd simply immense. The streets were crowded early, and by noon from 50,000 to 60,000 visitors were in the city. The city was beautifully decorated. The various regiments held their reunion this morning. The residence of Major McKinley was visited by crowds of citizens, all eager to see President Hayes and General Garfield, who several times appeared on the piazza, and were loudly cheered.

The procession was moved promptly to the fair grounds, headed by General Sam Dent and staff, the Grand Army band, followed by President Hayes and suite in an open barouche, drawn by four white horses, and two carriages, occupied by General Garfield, ex-Governor Bishop, and other prominent citizens and officers.

Only ten thousand veterans of the late war were in line. Forty Ohio regiments of infantry and fifteen regiments of cavalry were represented, besides some West Virginia, Pennsylvania, and Indiana troops.

At the fair grounds speeches were made by President Hayes, General Garfield, the Hon. Stanley Matthews, and others, all of whom were loudly cheered.

A free dinner was served on the fair grounds for the multitude. There were provisions enough left to feed 10,000 more after feeding 40,000.

This evening President Hayes and General Sherman held a reception at the residence of Major McKinley.

The festivities were closed by 2,000 rounds by Major Goodspeed's famous Gatling-gun Battery on the square, followed by a grand display of fire-works, which cost over \$1,000.

General Garfield left for home at 1 o'clock, and the Presidential party left for the West at 11 o'clock in a special car on the lightning express of the Pittsburgh, Port Wayne and Chicago Railroad.

## THE YACHT JEANNETTE.

Arctic Sailors Think there is a Small Chance of Ever Seeing Her.

WASHINGTON, Sept. 1.—A San Francisco dispatch states that Arctic sailors declare that there is a small chance of ever seeing the Jeannette again, because she was not made to stand the pressure of such ice as she was obliged to meet last winter, and that she was very poorly constructed for Arctic navigation generally. Secretary Thompson said to-day there was no ground for such allegation, and that on the contrary, she was the best made and strongest built vessel ever sent to the Arctic regions. Thirteen thousand dollars was spent in strengthening the hull after Bennett declared her dead, under the direction of the Navy Department.

## ARRESTED.

MILWAUKEE, Sept. 1.—Harry Travilla, who recently shot a traveling man named Marburg, in a Denver house of prostitution, was captured in this city to-day. The detectives were informed last week that he had come this way, and have been watching for him. He has been stopping at the Kirby house, nearly a week, under the alias of Harry Hill. He admits that he killed Marburg, but says that it was done in a scuffle, the deceased having assaulted him.

## BRIEFLETS.

—More weather.

—The night for prayers at the churches.

—The Court street church folk are making arrangements to have the Peak family shown up here.

—The Janesville and Milton Odd Fellows will have a picnic at Clear Lake on Thursday, Sept. 9.

—A little son of Norman Parker took a tumble the other day and suffered a fracture of the collar bone.

—Beloit College hung open its doors, yesterday, for the full term, and there was an encouraging rush of students.

—A house owned by A. C. Fish, at Racine Junction, was damaged, Tuesday night, by lightning, to the extent of \$75.

—M. C. Smith has rented his new store on East Milwaukee street to Eastern parties, who intend to fit it up as one of the most elegant billiard parlors in the West.

—Those who want the job of carrying the mail between the postoffice and depot, will have a chance now to bid. Sealed proposals will be received at the postoffice here until the 10th of September.

—Arrangements have been made for a special train to leave Beloit for Janesville Monday evening, to accommodate those who desire to hear Lawrence Barrett. It will return after the entertainment.

—Joseph Miller, an attorney, and alumnus of Beloit College, was yesterday married to Miss Alva E. Dow, of Clinton. They left for Chicago, to spend a few weeks there, and will then push on to California, which is to be their home.

—The funeral services of the late Curtis Parney were held yesterday and were largely attended. A number from this city were present, as well as his immediate neighbors and friends. The remains were laid at rest in Oak Hill cemetery.

—William Hutton, while at work in the shoe factory this morning got his hand in the machinery, and had the most on it pretty badly cut up. His thumb is in the worst condition, but it is expected that even that will come out all right, by giving it time.

—J. H. Smith is reorganizing his original New Orleans Minstrels here, nearly all the members having arrived, preparatory to spending a week here in rehearsing, give an opening night, and then start out on their route. The company is said to have been made up of extra good timber, and hope to have a successful season.

—Last evening Marion Clarke, a brakeman on the Northwestern road, got between the bumpers of two freight cars which he was coupling at Milton Junction, and had one of his arms badly mangled. Dr. Palmer was sent for, and dressed the injuries, and thinks the arm can be saved. Clarke's home is in Minneapolis.

—Mr. and Mrs. Pliny Norcross arrived home yesterday afternoon from Europe and report a most pleasant trip. They parted with Mr. and Mrs. Lovejoy at Coblenz. They will probably remain abroad a few weeks longer. Mr. Norcross is somewhat surprised to learn of the double series of letters purporting to have been written by him, one in the GAZETTE, the other in the Recorder. He says that he wrote only for the GAZETTE, and that he never saw the letters, which appeared in the Recorder, and that the authorship of all the letters, except those which appeared in the GAZETTE belongs to some person other than himself, and that person, whoever he may be should have the entire credit of them.

## THE WEATHER.

## ROBBERY OF A TICKET.

A man named Johnson, hailing from Edgerton, was last night out for a time with the boys, but lost his ticket by it. The Marshal drove a party out of a saloon at closing up time, and he seemed to be with them. He used the baggage truck at the depot as a cat, and about 2 o'clock this morning woke up to find his silver watch, ten cents in money and a key gone. No arrests.

Mr. Moffitt has made a good record in Janesville, both as a machinist and a man, and outside of business also has won many friends. Mr. Moffitt will remain for a few weeks, until she closes up her dress-making business, when she will join her husband in Springfield. Her many patrons and friends will miss her also.

—R. F. Pettigrew, who was yesterday nominated by the Republican Senatorial convention, of Dakota, as delegate to Congress, was formerly a resident of the town of Union, and his relatives are still

living there. To-day's Chicago Times says of him:

R. F. Pettigrew is one of the pioneers of Dakota, having located in Sioux Falls twelve years ago. He is one of the most prominent lawyers in the territory, and has figured extensively in Dakota politics for several years. He is a self-made man, and has grown rich since his residence in the territory. He is President of the Cross Mining company, of the Black Hills, and Vice President of the First National Bank of Sioux Falls, attorney of the St. Paul and Sioux City railroad, and is well known and popular. His nomination is regarded as a good omen by the Republican party, and he will be elected by a stupendous majority.

## WILSON'S OBSERVATORY.

Brother Wilson, of the Times, didn't put in a full day's work yesterday, and yet his time was so occupied, that he only got two square meals. Shortly before dinner time he clambered up onto the roof of Smith & Jackson's block to disentangle the ropes used to flumm the Democratic campaign flag over the heads of good honest Republicans, as they pass along Milwaukee street. Having finished his task, he started to go down, but he didn't go. The exit had been locked thoughtlessly, and the holder of the key must have gone to dinner. It looked a little serious, but then he could call some one and have them go after the key. Certainly, he stretched himself on the gravel roof, peeped over the cornice, and dizzily whispered. He spoke. He called. He belabored. The world moved on, and none there were who seemed to heed the cry of suffering humanity, and the dinner was getting cold. Shaking out the phobias which had crowded into his walking shoes, and taking a fresh inflation he yelled again. It was heard. Lawyer Phelps rushed to the window of his office across the way, and looked down into the street. "Phelps, Phelps!" The attorney again looked up and down the street. After a few such calls had kept him in a state of unsuccessfull anxiety for ten minutes or more, Wilson tried it on Reichwald, at the bank. He came to the door and peered out, but not up, and after his gaze, went behind the desk again. Clem Jackson on his way to dinner heard his name shouted, and turning around thought it was one of Darius Allen's whispers, and asked him what he wanted. Todd heard a voice and looked up to the Y. M. C. A. rooms and seeing no one went on disgruntled at the delay. Wilson took a respite and commenced throwing pebbles to attract attention. He nearly started Jack's dry horse into a walk, almost smashed a show window, and caused a groceryman to shake a small boy for throwing the stone. The worried editor was disgusted with the impossibility of making men look up in the world, and he found himself really thinking of some of John Bunyan's stories about the man raking old straw, while a gleaming crown hung above his head unobserved by him. Thoughts of heaven and the angels came to Wilson like the long-forgotten dreams of childhood, and he found he couldn't stand much more dizziness and so crawled away from the cornice, and gathering up his knees in his hands sat and toasted, and thought, and waited. Would he be left there to die alone and forgotten? Would the paper be out on time? The shadow on the dial moved slowly, tempers non fugit, life was at best a dreary monotony, and he hadn't been to dinner. It was 2 o'clock. He made one more attempt to arouse some one in the block beneath him, and going to the door of exit kicked and stamped, and then tried in sheer desperation to force it open. It opened. Only stuck tight by the swelling of the wet weather, and not locked at all! Such was the verdict of the common's jury, who sat on the dead give-away. It hadn't been locked at all.

The delayed and enraged editor as speedily as possible sent word home—"Could not come up to dinner." Have been caught upon the roof."

This innocent message was enough to carry consternation to the anxious waiter at the hearthstone, "Caught upon the roof. Is he hurt much? Any bones broken? Oh, dear—" and without stopping to faint the true woman heart made the feet fly fast till she crossed the threshold of the sanctum and saw the liege lord sitting at his desk, mopping off the moisture, which came from a brain wrestling with an apologetic editorial, which commenced—"Our city is comparatively quiet to-day, not much news being handy for a greedy public." He wasn't hurt, if he had been caught upon the roof.

## THE PUBLIC SCHOOLS.

The fall term of our city schools begins on Monday the 6th instant. It is desired that all expecting to enter school this term should join their classes on that day. Pupils whose classification depends upon examination, will be admitted on Monday mornings only.

## TO TEACHERS.

The first teachers' meeting of the fall term will occur on Saturday, the 4th inst. at 9 o'clock a. m., in the Central school building. Every teacher of the corps is expected to be present.

R. W. BURTON.

## THE BELOIT FAIR.

The weather has had a bad effect upon the attendance at the Beloit Fair, but the exhibits in all departments are reported as excellent, and worthy of a crowd to see them. The other attractions are also unusually fine. In the bicycle race yesterday, Percell, of England, won in the best two out of three, mile heats, and Hicks of Philadelphia, won the two-mile dash. One of Dr. Strong's horses won in the race for three-year-olds.

A special telegram to the GAZETTE from Secretary Chapman, to-day, states that the races placed on the programme for to-day have been postponed until Friday, and Friday's races postponed until Saturday, and that a great number of horses are there. This will give a chance for all to see some rare sport, and a more enjoyable day cannot well be spent than at the Beloit Fair.

## WORTHILY WEDDED.

Last evening there was a happy gathering of about sixty friends at the residence of Levi S. ## OBITUARY.

CHESTER COOK.

To-day death took away another of Rock county's old residents—Chester Cook, of Harmony, who has been for a year past in poor health and who for two weeks past has been confined to his bed by paralysis, and has been gradually weakening until the end at last came. He had reached the ripe age of eighty-two years, and his life had been an active one. In his early youth he was engaged in the manufacturing of woollen goods in the East, and later lived in Ohio, from which State he removed with his family in 1856, and settled in the town of Harmony.

Since coming here he has been engaged in farming, and has led a life which has not called him into any great prominence, and yet he has won a large circle of acquaintances and friends in both city and country, who will be saddened at learning of his death, and will sympathize deeply with those upon whom the blow comes more heavily. Besides the widowed wife he leaves four sons, I. P. Cook being the only one now residing in Harmony, the others, Edward Dwight, Henry and George, being residents of Chicago and in business there. The sons have all been by his bedside for several days past, but to-day three of them were called to Chicago on business, supposing their father would live at least until they had started, death came. The time of the funeral cannot be fixed until they can be communicated with, and due announcement will be made.

Albert Coppley, of McDaniel's P. O., Ohio, makes a statement.

"I have been a great sufferer for years with inflammation of the kidneys and a nervous disease that caused a twitching of the face, mouth and eyes, to such an extent that I could not appear in company. DAY'S KIDNEY PILLS have entirely cured me, and I shall never fail to do all I can to have its merits known."
